NOTE FOR: Executive Officer/D/ICS
Executive Assistant/A/DDI

This note passes on some correspondence and asks for some joint assistance.

The Deputy Director received the attached memorandum and enclosure recently. On the surface, the issue appears to relate to collection. A deeper reading of the JCS memorandum to DIA, however, reveals that production appears to be included as well (see para 3).

As a result, I believe that the ICS should take the lead in producing a memorandum back to Director, DIA, which addresses the totality of his request. In my view, such a memorandum should be the outcome of a joint ICS/DDI review. In this case, the DDI's participation should be for both CIA, and for the Community's, production efforts. From my perspective, the DIA/JCS correspondence addresses collection in the broad sense -- not just Sigint -- and production in a similar way -- not just the annual version of NIE 11-3/8. Some obvious issues, to be addressed in this review, come to mind: what requirements exist? who is working against which ones? what is being reported -- as basic information and as finished assessments? to whom? and what can we do better (if anything)?

The time line for completion is unknown, but I trust this can be done by the beginning of April. An interim answer may be useful. The DIA point-of-contact, [] might be able to give some insight to this point.

25X1

If there is anything I may do to assist you, such as answer questions or offer suggestions, please let me know. If this request appears ready to turn into a gigantic, or intractable problem -- as I hope it will not -- please let me know. I would be grateful for some verbal status reports, as appropriate, from the team doing the work.
